

# របៀបដំឡើង The Book Store POS Program

# Step 1

Documentations

POS Executable File

📁 The\_Book\_Store2

 AllTablesForTheBookStore.sql

Run នូវ file sql មួយនេះនៅក្នុងកម្មវិធី  
Microsoft SQL Server Management  
Studio នៅលើម៉ាស៊ីនរបស់អ្នក ដើម្បីបង្កើត  
Database និង Tables

# Step 2

**Open Folder [ POS Executable File ]**

# Step 3

Application Files

ConnectionString.txt

setup.exe

The\_Book\_Store.application

បើក File ដែលមានឈ្មោះថា  
ConnectionString.txt

# Step 4

The screenshot displays the Microsoft SQL Server Management Studio interface. In the Object Explorer on the left, the server instance 'VID3107\SQLEXPRESS' is selected and highlighted with a green circle. A green line connects this circle to a green circle around the 'Data Source' value in a text editor window on the right. The text editor window, titled 'ConnectionString.txt', contains the following text:

```
Data Source = ViD3107\SQLEXPRESS;  
Initial Catalog = POS_BOOK;  
Integrated Security=True
```

A green callout box with Khmer text is positioned below the text editor window, explaining the data source:

ប្តូរ Data Source កន្លែងនេះ ដាក់  
Data Source នៃ Local Machine  
របស់អ្នកវិញ

The status bar at the bottom of the SQL Server Management Studio window shows 'Ready'.
